COMP-215-401 23W --Client-Side Web Development

Hands-On Test 1 Form Preview

The assessment is based on two main parts.

1. Prefill form elements such as input fields, radio buttons, Dropdowns, etc… Html and CSS will be provided.
2. Event Handling - Reading values from the user

There are more instructions in the javascript file

Practice the event handling for all UI elements listed above, especially: submit, input, change. Practice with working with DOM.
